Our Education

Instruction for degree programs offered are Onsite, Online, and Blended. All instructions of onsite courses are held at California University campus.

- ✧ **Customized Study Plan:** The program could be accelerated into 12 months or extended over several years per students' choice.
- ✧ **Flexible Instruction:** Besides onsite instructions, the program could be completed through **full distance education** by ZOOM and Moodle.
- ✧ **Contemporary Curriculum:** Focus on solving practical problems that diverse organizations are facing in today's global connected world.
- ✧ **Job Preparation:** Students will be ready for various kinds of business organizations from start-up to Fortune 500 companies.

Our Difference

In a traditional university setting, students are expected to follow a standardized curriculum, regardless of their existing knowledge, interests, or future goals. However, our educational approach takes a different path. We offer a project-based education that empowers students to actively participate in shaping their learning experience.

Instead of being confined to predetermined coursework, students have the freedom to choose roles within projects that align with their interests. By immersing themselves in these projects, they not only gain practical experience but also encounter a multitude of questions and unknowns. To address these uncertainties, students construct a question tree—a structured framework that organizes their inquiries.

Through this process, students identify the specific knowledge they need to acquire and the skills they need to develop to navigate their project effectively. This personalized learning journey allows them to actively pursue the answers to their questions while also preparing themselves for their desired future endeavors.

In essence, our educational approach fosters a dynamic and engaging environment where students take ownership of their education, explore their passions, and build the necessary foundations to achieve their goals.

California University's Academic Calendar

(From January 2022 to December 2024)

Master's Degree Programs	Public Holiday

Notice to Prospective Degree Program Students

This institution is provisionally approved by the Bureau for Private Postsecondary Education to offer degree programs. To continue to offer this degree program, this institution must meet the following requirements: 1) Become institutionally accredited by an accrediting agency recognized by the United States Department of Education, with the scope of the accreditation covering at least one degree program. 2) Achieve accreditation candidacy or pre-accreditation, as defined in regulations, by (date two years from date of provisional approval), and full accreditation by (date five years from date of provisional approval).

If this institution stops pursuing accreditation, the following will happen: 1) The institution must stop all enrollment in its degree programs, and 2) Provide a teach-out to finish the educational program or provide a refund.

An institution that fails to comply with accreditation requirements by the required dates shall have its approval to offer degree programs automatically suspended.
